RE: Testimonial

To Whom It May Concern

I have been working with LabourNet East Rand for some time now and find that they are an extremely valuable business partner in our business. Every aspect of HR is covered by LabourNet from policies/procedures to disciplinary hearings and advice at any time.

The service delivery that we have received has definitely been of top quality, reliable and valuable. LabourNet has become part of our team going forward and know that we are building a long term relationship in the future. As we are a growing company so LabourNet will grow to accommodate our requirements as well as support us in whatever direction we decide to take. Without their assistance I feel that we would not have achieved what we have in the HR and IR departments.

For the amount of money we as a company have invested in LabourNet it is worth every cent. The services that you would receive goes far beyond the monthly retainer.
