LabourNet

RE: Letter of Testimony

Attention: Lauren Spence

Dear Lauren

I wish to engage in writing a brief letter applauding the excellent levels of service and professionalism I receive from you and your team and in General LabourNet.

I have been a long standing client with LabourNet as my business dealings exceed eight years of priceless pleasure. LabourNet has assisted me in effectively running and managing one of the biggest tasks challenging business owners today – Employees. Challenging employee Labour issues and the Labour department's typically poor, uneducated and inefficient behavior is a daunting task. One will not appreciate your services until they have experienced the pain in dealing with these issues alone. It helps to have a business partner that will stand by you, providing accurate information, procedures and support. With several appearances in both the CCMA and the Labour Court over the years, I am proud to announce that with your assistance we have won all of these cases.

Being supported by you and your team, has allowed me to focus my time on running my business. You have proven to be a dedicated, efficient, effective and professional team always available to assist, no matter when. The service offered by you and your team exceed my expectations and provide me with an all round complete human resources support system.

I once again wish to sincerely thank you your team and LabourNet for all you have done for me and my business.

Yours truly,

A handwritten signature in black ink, appearing to read "Clifford Bond", is written over a circular stamp. The signature is fluid and cursive.
